FEBRUARY, 1967

PETER PRINCE HOUSE, HISTORIC CALGARY LANDMARK, TO BE MOVED TO HERITAGE PARK AND RECONSTRUCTED AS CENTENNIAL PROJECT OF TWO CALGARY COMPANIES

In a salute to the Canadian Centennial, two young companies with a long future have combined to help preserve the past in Calgary. The two Calgary-based companies are components of the Alberta-California gas pipeline system, linking Alberta gas fields with California and Montana. They are Alberta and Southern Gas Co. Ltd., gas purchaser and shipper for the international system, and Alberta Natural Gas Company, operator of the connecting pipeline through southeast British Columbia.

As a Centennial Project Alberta Natural has consented to provide up to \$25,000 for dismantling and transferring an historic downtown Calgary home, and its reconstruction in the pioneer village of Calgary's community Heritage Park. The home built by lumberman and pioneer industrialist Peter A. Prince in 1894, is now located on the northeast corner of Fourth Avenue and Second Street Southwest, but was at time of construction, on the town's outskirts.

S. Robert Blair, President of Alberta and Southern Gas in announcing this Centennial project today said: "The Calgary and out-of-town directors of the two companies are unanimous in believing that the Prince home should be permanently preserved as part of the Calgary and Canadian heritage, and we are very pleased to co-operate to make it possible. The companies are working to-

gether on plans to construct a modern office building on the downtown Prince site. Incidentally, they will endeavour to preserve the half century old trees on the site within a landscaped "green-belt" setting. The fine old brick Prince home—one of the first architect-designed brick homes in Calgary—will be reconstructed at Heritage Park, and is scheduled to be opened to the public in the spring of Centennial Year, as a contribution on Canada's 100th Birthday."

Joe R. Schmitz, Chairman of the Calgary Citizens' Centennial Committee said, "A most commendable Centennial project and an outstanding example of support from the business community. We are looking forward to hear about more projects sponsored by Industry as the Centennial year gets underway in a few weeks. This project is of particular significance to our city since I believe it is the first large one presented by companies in which ownership is held outside of Canada."

Alberta Natural Gas and Alberta and Southern Gas Co. Ltd. are affiliates of Pacific Gas and Electric Company of San Francisco which is a major ultimate customer of Alberta surplus natural gas. The pipelines involved have substantial Canadian investor participation. The directorate of the companies is drawn from both Canada and the United States.

THE PETER PRINCE HOUSE, built in 1894, is one of the finest remaining homes of early-Calgary, built of brick, contrasted with the log frame construction then prevalent in the young frontier city. Peter Prince, manager of the Eau Clair Lumber Co., designed his home from plans of a Glenbrook, Conn., U.S.A. home published in the November 1893 issue of the "Scientific American, Architects and Builders Edition". It is located at 238 Fourth Avenue S.W., in what is now downtown Calgary, half a block east of the new "Calgary Inn" and half a block west of the "Summit Hotel". It is on property acquired in 1966 by the corporate group known as the "Alberta-California Gas Project", which operates the natural gas system now linking Alberta gasfields with San Francisco.

GOLDEN CENTENNAIRES, JET AEROBATIC TEAM TO GIVE 100 SHOWS IN CENTENNIAL YEAR

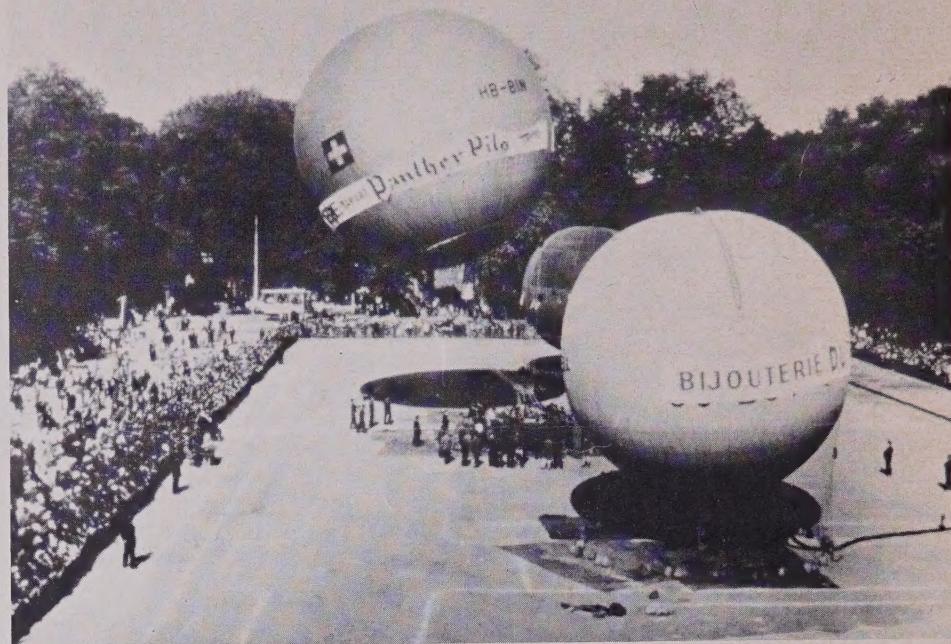

"Golden Centennaires", the crack RCAF aerobatic team, will give 100 centennial year performances from coast to coast between June and September of 1967. The team will start and finish their tour at the opening and closing ceremonies of Expo 67 in Montreal. They will perform at the 50th Anniversary celebrations of military flying in Ottawa on June 10; do aerobatics over the Naval assemblies in Halifax, June 24 and Victoria, July 19; help open the Pan American Games in Winnipeg, July 23; participate in the International Air Show at Abbotsford, B.C., August 11, 12, 13; visit the Pacific National Exhibition in Vancouver, August 25-26; and the Canadian National Exhibition in Toronto, August 30-31, September 1-2. Three shows will be held in Newfoundland, four in Nova Scotia, New Brunswick 8, and Prince Edward Island 2. A total of 18 performances will be given in Quebec and 29 in Ontario. Manitoba will have four shows, Saskatchewan 9, Alberta 8, British Columbia 14 and one show in the United States. Several areas, such as the south shore of Nova Scotia and the Gaspe region of Quebec could not be included due to the lack of suitable recovery airfields. Appearances of the famed "Red Knight" and other Canadian forces aircraft will be arranged for these areas and for a number of other smaller towns and villages not visited by the team. Nine tutor jet trainers and two 1919 vintage, AVRO 504K aircraft will provide a comparison of the progress made in speed, design and performance capabilities of military aircraft over the last 50 years.

Commanded by Wing Commander O. B. Philip of Sydney, B.C., the team members are: Squadron Leader C. B. Lang, Creston, B.C., team leader; Flight Lieutenants Tom Hinton, Verdun, P.Q.; John Swallow, Rowley, Alta.; Russ Bennett, Saint John, N.B.; Red Dagenais, Ottawa; B. K. Doyle, Richmond, B.C.; Dave Barker, Lakeview, Ont.; Bill Slaughter, Winnipeg and Jim McKay of Brant, Alta. F/Ls George Greff of Andrew, Alta., and Gord Brown, Toronto, are the AVRO 504 pilots. The support staff are: S/L L. J. Hubbard, Delia, Alta., information officer; F/L Denny Gauthier, Sherbrooke, P.Q., French commentator, and F/L Charlie Grant, Saskatoon, the engineering officer.

The RCAF Association is assisting in this centennial project.

Alberta itinerary for the "Golden Centennaires" is as follows: July 29, Calgary; July 30, Lethbridge; August 2, Medicine Hat; August 5, Edmonton; August 7, Red Deer; October 5, Grande Prairie; October 8, Cold Lake; October 9, St. Paul.

FIRST INTERNATIONAL BALLOON RACE A FEATURE OF CENTENNIAL STAMPEDE

BELL TELEPHONE IS OFFERING \$20,000 IN FELLOWSHIP AWARDS

The Bell Telephone Company of Canada has selected, as its Centennial project, a Fellowship Award program.

Four fellowships per year will be awarded on a continuing basis to students wishing to pursue a post-graduate degree at an accredited Canadian educational institution. The fellowship will be valued at \$5,000, \$3,500 to be paid over a period of 12 months to the fellow and \$1,500 grant to the graduate faculty of the university at which the student is enrolled. The student's tuition fees will be paid out of the \$1,500 grant to the university. The field of study is unlimited, but preference will be given to subject areas deemed to be in consonance with Canada's most pressing needs. Each fellowship will be renewable until completion of the degree course for which the student received the award, provided academic achievement warrants it. Applicants must be Canadian citizens or permanent Canadian residents.

Administration of this program, including selection of award winners, will be conducted by the Association of Universities and Colleges of Canada, with all costs being borne by The Bell Telephone Company of Canada. It is estimated that the continuing cost of the program will be approximately \$50,000 per year.

The first International Balloon Race to be held on the North American Continent will take place in Calgary July 7 and 13. This unique event, a premiere sporting attraction of Centennial year, will start at 11:30 a.m. on the infield of the Calgary Stampede. Eight huge and colorful, helium-filled balloons will lift off and fly for a limited time; the winner being the balloon farthest from the starting point at the end of the time limit. Spectators will be allowed on the infield early to watch preparations for the race. The Race has attracted the world's best balloonists from eight different countries, including the U.S.A., Britain, and five European nations. Dr. Charles Dollfus, France, the Dean of Balloonists, and a woman, Mrs. Nini Boesman of the Netherlands, will be among the participants.

The balloonists will receive trophies but no prize money, being pure amateurs. They are donating a month of their time and tremendous ballooning experience in a spontaneous act of comradeship to help celebrate Canada's Centennial Year.

A novel feature of the Balloon Race is First Day Cards, or "Balloonpost". These are to be available to the public and then carried by the balloons to the point of descent whereon they will be delivered to the nearest Post Office to be cancelled with a special cachet with the date, name of balloon carried by, and the location of descent, then mailed to the addressee.

Sponsor of this unusual and extremely interesting spectacular is Bill Wearmouth Holdings Ltd., of Calgary, who is undertaking this as a private Centennial project involving up to \$70,000.00.

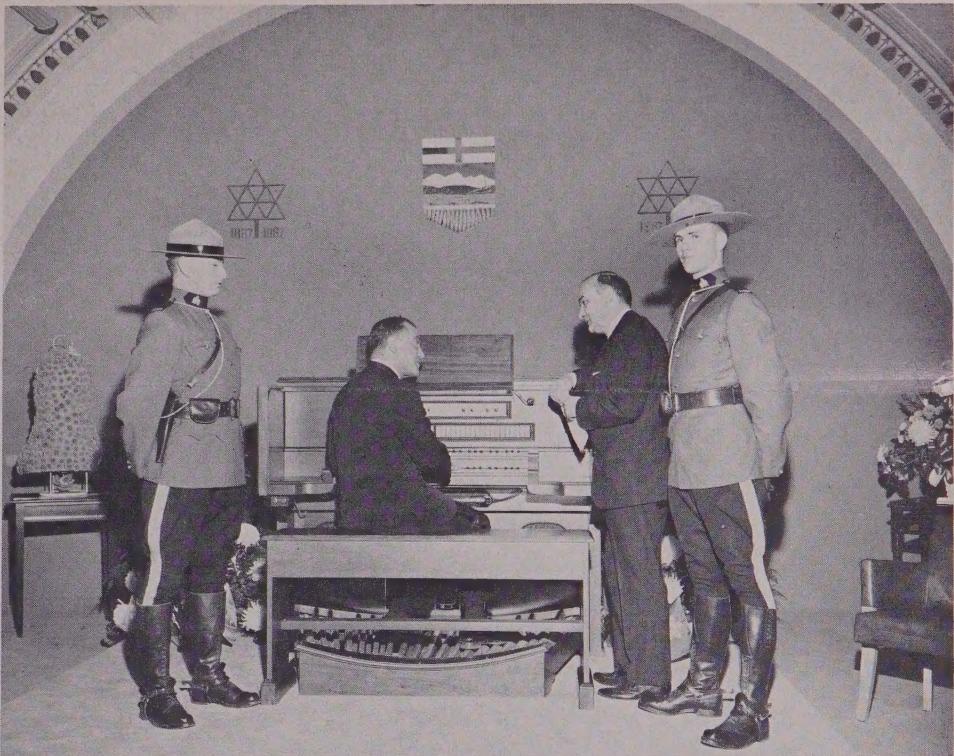

ALBERTA'S CENTENNIAL CARILLON DEDICATED IN CEREMONIES AT LEGISLATIVE BUILDING

The 305-bell Schulmerich Carillon which was purchased by the Department of the Provincial Secretary as a Centennial project and gift to the people of Alberta, was dedicated in a special ceremony at the Legislative Building on Thursday evening, December first. The ceremony took place in the concert hall located on the fifth floor, where the console of the carillon is located.

The Honourable Ambrose Holowach, Provincial Secretary and Chairman of the Alberta Centennial Committee was master of ceremonies for the occasion, and the keynote speaker was the Honourable A. J. Hooke, Minister of Municipal Affairs and Acting Premier. The Right Reverend W. G. Burch, Anglican Bishop of Edmonton, performed the Dedication, and the Most Reverend Anthony Jordan, Roman Catholic Archbishop of Edmonton, pronounced the benediction.

Following the ceremony, John Klein, well known throughout North America and Europe as a carillonneur, composer and recording artist, presented a special recital, which included a brief description of the instrument and a demonstration of the various types of bells which make up the carillon.

Douglas Millson, organist and choir director of Robertson United Church in Edmonton, has been named official provincial carillonneur, and began his duties with a recital on Sunday afternoon. More than 500 persons crowded the Legislative Building to hear this concert. Mr. Millson will present recitals each Sunday afternoon, and, during Christmas week and similar special occasions throughout the year, appropriate music will be presented.

Top right: The Honourable Ambrose Holowach, himself a former concert pianist, discusses the carillon with carillonneur John Klein, following the dedication ceremony.

Centre: John Klein at the console of the Alberta Centennial Carillon.

Lower left: The Honourable Ambrose Holowach addresses the guests at the dedication ceremony. Platform guests include, left to right, the Lieutenant Governor, Dr. J. W. Grant MacEwan; F. L. Day, Regional Officer representing the Centennial Commission; Most Reverend Anthony Jordan; the Honourable A. J. Hooke; Right Reverend W. G. Burch; H. A. Henderson, Chief Architect, Department of Public Works; and Walton S. Nyce, Vice-President, Schulmerich Carillons Inc.

NATIONAL FILM BOARD PRESENTS 153 FILMS AS CONTRIBUTION TO CANADA'S CENTENARY

Mr. Graydon Arnold, Assistant Regional Director of the National Film Board of Canada, presents to Hon. R. H. McKinnon, Minister of Education, samples from the one hundred and fifty-three 16mm films that the Board is presenting to the Province as part of their contribution to Canada's Centenary. Mr. Arnold is accompanied by Mr. H. H. Dickie, local representative of the film board, and Mr. P. J. Lazarowich Q.C., Prairie Region representative.

INVITATION SENT

On behalf of the Nebraska Old Time Fiddlers, I am inviting the fiddlers of Alberta to participate in the International American Old Time Fiddlers Contest, August 5 and 6, 1967 at Lincoln's Nebraska Wesleyan Fine Arts Auditorium. Since 1967 is the Nebraska Centennial year, as well as the Canadian Centennial year, it seems suitable we celebrate together.

We are trying to arrange a fiddlers' exchange. We hope to have many Canadian fiddlers visit Nebraska. Then after our contest, we shall board chartered buses to attend the Canadian National Fiddling Contest at Shelburne, N.S., on August 11 and 12. Then on the 13th, we shall appear at the U.S. Pavilion of the Expo '67 at our government's request. At this time, I anticipate we will have some 90 or more folks with us on the tour.

We hope there will be an equal number or more Canadian fiddlers participating in this fiddlers' exchange. The Canadian Secretary for the American Old Time Fiddlers is Bill Guest, B-20 Westphal Trailer Court, Dartmouth, Nova Scotia. He is handling the chartered bus arrangements for the fiddlers headed toward Nebraska.

I also am enclosing a letter about our association's major project—to preserve the fiddling know-how and information. Assistance in this project will be gratefully received. We desire to have a complete reference book of fiddlers and fiddling information available to all interested.

We shall greatly appreciate any assistance you can give us to alert the Canadian fiddlers of your province to the fun they can have on a chartered bus trip with other fiddlers.

Thank you for your cooperation.

Sincerely Yours,
DE DeRYKE.
(Miss) De DeRyke.

AN OUTSTANDING PROJECT FOR 1967 BY TWO CANADIANS

This beautiful rug, which will measure 14 by 21 feet when completed, is the project of Dr. Ernest Gafe of Stettler and Ted Beida of Edmonton. It has all the floral emblems and coats of arms of each province with the Canadian coat of arms in the centre. There are some 420,000 individual pieces of wool in the rug, weighing a total of more than 200 pounds, and comprising 26 different colours. Shown is about one-third of the rug, which they hope to finish early in 1967. Dr. Gafe and Mr. Beida are new Canadians, who have grown to love their adopted country so much that they wanted to do something to observe its Centennial.

ALIX CENTENNIAL PARK TO CONTAIN SPECIAL TRIBUTE TO IRENE PARLBY, CHAMPION OF WOMEN'S RIGHTS

At Alix, the local Centennial Committee's plans are in full swing. The original project of creating a park in honour of the pioneers of the district was drafted over a year ago and much of work was carried to near completion during the summer months. A more lovely spot would be hard to find than this on the north side of Diamond Lake where silvery waters mirror the trees along the banks. Shrubs, lawns and flowers are now to be added to the natural beauty in the hope that this will indeed be a place of rest and refreshment of both body and spirit.

More recently, the Historical Sites Board of the Department of Northern Affairs has entered the picture with the offer of a bronze plaque in commemoration of Mary Irene Parlby, and her work for community, province and country. This plaque is to be placed under the trees at the end of the lawn, and will be to many a momento not of her public work only, but of her ardent love of gardens and the beauties of nature.

Mary Irene Parlby was born in England on January 9th, 1868, the eldest daughter of Lieutenant Colonel Ernest Lindsey Marryat and his wife Elizabeth, of Irish parentage. As a child she lived alternately in England and India, depending on where her father's work called him. Her education was at home with governesses, with a short finishing off period in Germany and Switzerland.

In 1896, Irene Marryat came to a ranch home west of Buffalo Lake as the guest of Alice (Alix) Westhead, the first white woman settler after whom the Village of Alix was later named. She met and married, Walter C. H. Parlby, a pioneer rancher of this area. Their only child, a son, Humphrey Marryat Parlby was born some years later.

Life was always full of activity. As soon as home responsibilities permitted, Mrs. Parlby's interests widened to the community, province, country and the world at large. When the Country Women's Club (forerunner of the U. F. W. A.) was formed in 1913,

VETERANS' WEEK JUNE 11-17, 1967

The week of June 11 to 17, 1967, will be National Veterans Week in Canada, it has been announced by the Hon. Paul Pelletier, Minister of Veterans Affairs.

During Veterans Week, the contribution which Canadian veterans have made to our country during its 100 year history, both in war and in peace, will be emphasized and publicized. With the cooperation of Veterans organizations a program of events will be arranged locally, provincially and nationally that will focus attention on our veterans and their achievements as good citizens. Details of this program will be available later.

Mrs. Parlby became the first secretary. Three years later she was elected Provincial President of the United Farm Women of Alberta and in 1921, Minister without Portfolio in the U. F. A. Government. While in public life, she strove for improvements in the fields of public health and welfare, education and women's rights.

In 1928, Mrs. Parlby visited the Scandinavian countries to report back to the U. F. A. Government on schools and co-operatives. The autumn of 1930 saw her at the League of Nations at Geneva, one of Canada's delegation of three.

During the years from 1925 to 1930, Mrs. Parlby was one of the group of five who obtained the recognition of women as "persons" in the eyes of the law and therefore qualified to be appointed to the Canadian Senate. Besides Irene Parlby, this committee of five Alberta women included: Mrs. O. C. Edwards, of Fort MacLeod, convener of laws for the National Council of Women; Magistrate: Emily S. Murphy, who was the leader in the Senate question. Nellie L. McLung, then of Edmonton and Louise C. McKinney of Claresholm.

Upon retirement from public life in 1935, Mrs. Parlby was presented to the Convocation of the University of Alberta by the president, Dr. R. C. Wallace. In recognition of her work, the University conferred on her the honorary degree of Doctor of Laws.

Occasional talks on the C. B. C., reading, gardening, making scrapbooks on world affairs occupied the last years. On July 12th, 1965, her life's work done, Mary Irene Parlby was laid to rest in the Alix cemetery, scarcely a mile from the spot where the plaque will be mounted in her memory on June 28th, 1967.

"CENTENNIAL DAY" AT WARNER MARKS PROJECT OPENING

Warner has several projects planned for Centennial year, the major one a Bowling Alley. This project has been completed, and the official opening will be held on June 9, the town's annual Sports Day. The Chamber of Commerce are sponsoring a beard growing contest—there will also be ball games, a parade, arena events, displays of various centennial projects and a dance in the evening.

Another example of projects is one that the Farm Women's Union of Alberta have undertaken. They will have a sign erected at the cemetery reading "Warner Cemetery" with the Centennial year included on it.

Plans are underway for a display of antiques and old pictures of interest to the community. These will be on display during the day and evening of Centennial Celebration day, June 9, 1967.

ATA CONFERENCE ON BUSINESS EDUCATION PLANNED FOR MARCH

As their contribution to Centennial year observances, the Business Education Council of the Alberta Teachers' Association has organized a Canadian Conference on Business Education, "Systems for the Seventies," to be held in Banff, Alberta, March 26th to 29th, 1967.

The purpose of the Conference is to present emerging trends and developments in business education across Canada, and to consider guidelines for the future.

Leaders in education and business from all parts of Canada will act as speakers, consultants, and reactors. Speakers include G. E. Bolton, Director of Personnel, Air Canada, Montreal; Paul S. Deacon, Editor, The Financial Post, Toronto; Dr. Geraldine Farmer, Associate Professor, University of Alberta; Dr. G. E. Glendenning, Chief of Staff Development and Technician Training, Department of Manpower and Immigration, Ottawa; R. H. Heywood, Associate Professor, University of British Columbia; Dr. S. M. Hunka, Professor, University of Alberta; W. T. Newnham, Principal, Northview Heights Collegiate Institute, Willowdale, Ontario; R. C. Ohlsen, Department of Education, Edmonton; Mrs. A. F. W. Plumptre, Economic Council of Canada; R. W. Purves, former Personnel Manager, B.C. Hydro and Power Authority, Vancouver; R. A. Sanburn, Department of Education, Winnipeg; C. H. Scofield, Assistant General Manager, Canadian Chamber of Commerce, Montreal; G. E. Seguin, Department of Education, Toronto, and Sybil Shack, Principal, Brock School, Winnipeg.

Two hundred delegates including business teachers, administrators, and representatives of Departments of Education, teachers' associations, faculties of education, business and industry are being invited to attend.

Persons interested in receiving invitations may contact Dr. Geraldine Farmer, Faculty of Education, University of Alberta, Edmonton.

LETTER FROM VIKING REPORTS ON PROJECTS AND PLANS FOR CELEBRATIONS DURING CANADA'S CENTENNIAL YEAR

A letter from Viking outlines some of the activities planned in that community for Centennial year:

Dear Mrs. Knott:

In regard to your request, I will list some of the things that we have been working on in this area in regard to Centennial and also discuss some of the things that we hope to do in the future. These are not necessarily in order of merit but more so as they come to mind.

1. Sports Ground—Our sports ground is being relocated and we hope improved. At the present time the baseball diamond has been completed as have two of the soft ball diamonds. It is hoped to add Gymkana ground, a third of a mile race track, and other areas during the early part of 1967.

2. Museum—The old Gilpin log store which was situated about ten miles north of Viking has been moved into town and is being renovated as a museum. This store was the only trading post in this area of the country between Wetaskiwin and Vermilion and served a very wide area. In addition to the actual museum, this committee is compiling the history of the area in regard to the early schools and the general settlement of the area.

3. Playground—The Elks Club of Viking have undertaken as a Centennial project to build a new playground in the vicinity of Vialta Lodge. Many of the older people enjoy watching the children at the games during the summer weather when they can be out and it is felt that this will be beneficial to them.

4. Name Signs—The Chamber of Commerce has undertaken name signs for all the farmers in the area who wish to have them. This will cover the general trading area of Viking. These signs will bear the Centennial emblem and will be eight inches by twenty-four inches in size.

5. Public Restrooms—The rural women's organizations are banding together to provide the capital for the installation of a public restroom in building space which has been provided by the town of Viking. The town will accept the responsibility of maintenance. This will be a great benefit to the women from the country who will have a comfortable waiting room and toilet facilities.

6. Bulletin Board—A bulletin board has been built in the school workshop and will be situated in the Post Office. It is intended that this will be maintained strictly for Centennial bulletins and information in general which may be of value to the public.

7. Viking Ship—The school workshop has taken on a project during the winter of building an exact replica of a Viking ship. This will be twenty-two feet long and will be mounted on a trailer to be used this year in parades in Viking and surrounding areas; as well as promoting Viking this should prove very interesting project for the students working on this. It is further intended to attire the crew of the ship in early Norse clothing.

8. Park Benches—The 4H Clubs have undertaken the building of a number of sturdy park benches and placing them in strategic areas in and around the town. The idea behind this is that older people will be able to take fairly long walks with the knowledge that there will be a spot that they can rest at once they know where these benches are located. This is a very thoughtful project and our youth are to be commended for it.

These are the projects that are being worked on. However there are many other less tangible items, a few of them are as follows:

1. The executive committee carry a weekly ad in the local paper. The idea is to keep the Centennial emblem before the public and the names of the committee that they contact for information. A column headed "Your Centennial Reporter Says" is usually a series of paragraphs of various items of interest to the community. Incidentally the newspaper, the Viking News, carries this column free of charge and the advertising is also free of charge.

2. A rural centennial committee is working on various promotions such as painting and planting trees and general clean up of the rural area. To aid in this type of thing they have arranged to make paint available to the farmers at about 70% of the normal retail cost. It is also planned to get old buildings and eye sores throughout the country which are no longer usable removed.

3. We have in addition a town beautification committee and their aims are quite similar to those of the rural committee. In addition they will try to get the town businesses to decorate their stores as much as possible.

4. Various programs in the school will accelerate after the Christmas holiday.

5. An annual event in Viking is the Fridge Bonspiel. This year they have incorporated the Centennial into it. Each ice lane will have the Centennial emblem painted at center ice and it is our intention to decorate the curling rink as much as possible. In addition to the normal prizes received, the committee are providing table flags for the eight final rinks. The winners will receive a five base set with gold tip spears.

6. January 20th was "A Princess Night" at which time they selected a princess for Viking area and four attendants. The win-

ner was provided with a maple leaf tartan suit and tam. The runners-up were provided with a white shift type dress with the Centennial symbol worked into the material accentuated by a tartan sash.

7. Festivities for the first of July will of course include a commemorative service with a very large display of fireworks in the evening. Various other activities will be held throughout the day.

8. It is hoped to organize a Centennial choir.

9. The high school band as a Centennial band and to take it to various areas during the year. For example, we hope to go to Two Hills at the time the canoe race is going to be there at approximately the end of May.

10. We are of course hosting the caravan on October 13th and have done some tentative planning in this area also. However much of it is still of course tentative and it is difficult to give any real run down on the agenda of this date. We expect to have the Honorable Lesley Petersen, the B.C. Minister of Education, as our guest celebrity on that date. It may be of interest that Mr. Petersen was born just a few miles out of the town of Viking and it will be a manner of homecoming for him. He has tentatively agreed to come unless something unforeseen should force him to change his plans.

This will give you a general idea of the state of Centennial affairs in Viking. We have been provided with an office on the main street through the courtesy of one of our businessmen, the General Motors dealer, Alvin Golka. This has been of extreme assistance to us and we certainly appreciate his generosity. He provides the light and heat for the office as well as the space itself.

There is a reasonable interest here in Centennial and it does seem to be picking up more all the time. Quite a number of people are planning to attend the Panam games in Winnipeg and Expo in Montreal, myself included. The general difficulty of course is the lack of accommodation.

I trust the above will give you some of the information that you are interested in and we would be very happy of course to elaborate on any specific area if you were to require more information on it.

Yours sincerely,
R. W. CAREW,
Centennial Coordinator.
